DETAILED ACTION

Examiner's amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph W. Price on January 8, 2007.

The Examiner initiated an Interview with the Applicant in order to make all the independent claims possess allowable material so that the application could be placed in a condition for allowance.

Claims 26 and 29 are cancelled.

Allowable Subject Matter

2. Claims 1-5, 8-25, and 27-28 are allowed.
3. The following is an examiner's statement of reasons for allowance:

With respect to the independent claims 1 and 13-15, prior art fails to disclose or make obvious, in combination with other recited features of the claim limitations, an electron optical lens column characterized by a column unit and an electrostatic lens or plurality of electrostatic lenses disposed inside of said column unit and the inner surface of said column unit is given a high-resistance electrical conductivity, and said electrostatic lens or lenses comprise interconnections which are disposed between said inner column and said outer column.

Art Unit: 2881

With respect to the independent claims 25 and 27-28, prior art fails to disclose or make obvious, in combination with other recited features of the claim limitations, a manufacturing method for an electron optical lens column comprising the following steps: (1) a step that coats an electrically conductive material on the inner surface of a column unit, (2) a step that forms one set of electrodes for structuring an electrostatic lens through a removal of a portion of the aforementioned electrically conductive material that has been coated on the inner surface of the column unit.

The dependent claims 2-12 and 16-24 are allowable by virtue of their dependence upon the independent claim 1.

Conclusion

4 Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
